

Keys to Unlocking Lower Sanitizer Consumption

API products are proven to increase efficiency and reduce the amount sanitizers needed for retailers, service or commercial professionals as well as residential pool owners. Now more than ever pool professionals and consumers need ways to be more efficient and cost effective while ensuring proper pool care.

These products are highly concentrated, blended, multi-tasking, and easy to understand & use.

ENZymePRC®

- Increase sanitizer effectiveness
- Break down body oils, sunscreens & other organics
- Inhibit organic buildup on filter media

ENZymePRO® is a concentrated natural enzyme that helps to digest oils and organic contaminants allowing better sanitizer performance. Compatible with existing chemical products in any pool or spa.

32 oz	EZYMP32
1 gal	EZYMP1
5 gal	EZYMP5
30 gal	EZYMP30

Revive!®

- Reduce chlorine consumption
- Use as a flocculant or clarifier
- Strong phosphate remover
- Also removes metals and carbonates

Revive! products are versatile troubleshooters and a great part of any weekly maintenance program. Revive streamlines pool care by reducing dependence on sanitizer and ancillary chemicals.

16 oz	REVV16	1 gal	REV1
32 oz	REVV32	5 gal	REVP5
32 oz (spray)	REV32	30 gal	REVP30
